

ORESTA
organic skin care confectionery

kiss with a conscience

Ottawa, ON (October 2008) - ORESTA Organic Skin Care Confectionery, Ottawa's only chemical-free, organic spa and confectionery proudly launches their first beauty product:

LipKiss

organic gloss

LipKiss is good for the kisser and the kissed. Made with mindfully sourced natural & organic ingredients, it contains fair-trade shea butter, nourishing jojoba oil, vitamin E, pure mineral pigment and a natural citrus scent.

It is said that the average woman will ingest four pounds of lipstick or lipgloss in a lifetime. I love lip gloss but not all the nasty ingredients in it. I believe in beauty, but not if it compromises my health.

LipKiss organic gloss is free of petroleum, parabens, silicones, coal tar dyes & synthetic fragrances. Hydrating, nourishing, long-wearing and shiny without being sticky, LipKiss is available in 13 sheer to rich kissable shades.

LipKiss formulator, Oresta Korbutiak, a lipgloss wearer herself says that although she loves lipgloss, she doesn't love all the nasty ingredients in it. She believes that "quality can be achieved naturally without the standard and often toxic petro-chemicals and synthetics found in traditional lipglosses. Women do not need to compromise their health for beauty".

LipKiss is available exclusively at ORESTA organic skin care confectionery or online at oresta.ca

For more information, please contact Oresta Korbutiak at 613-231-7022.
