

FEBRUARY 2011

On February 1st, we are introducing our newest EMINENCE facial treatment!

CUSTOMIZED SKIN BOOSTER FACIALS

We will individually customize your facial to target your skin's specific needs with EMINENCE's NEW professional-use facial boosters and EMINENCE's LED light therapy to deliver effective results. The medical-grade LED light therapy treatment safely promotes firmer, smoother and more radiant skin. Specific light frequencies are used to increase collagen production, lighten pigmentation, soothe inflammation and help heal acne. For maximum results, six weekly light therapy treatments are recommended.

Choose one of the facial boosters:
