SOD (super oxide dismutate) - a naturally occurring anti-oxidant found in melons is the powerful nutricosmetic's primary ingredient. This extract combats free radicals and is superior to Vitamin C and CoQ10 in neutralizing damage caused by stress and free radicals. **GliSODin** is available in 3 formulas:

Advanced Detoxification Formula: This 15 day seasonal cleanse is also a great primer before a weight loss program. It stimulates the body's ability to eliminate toxins, helping to clear the path to clear, radiant skin. Although beneficial for all skin types, it is perfect for acne or blemish prone skin, often a result of poor digestion.

Advanced Daily Formula: This everyday supplement provides skin-enriching essential fatty acids and vitamins for daily maintenance and glowing, hydrated skin. The Daily Formula would replace any Omega 3 supplements.

Advanced Skin Brightening Formula: This formula is ideal for anyone looking to brighten and even out skin tone, while increasing its defenses against harmful UV rays. Great for summer, or year round to combat pigmentation from sun-damage.

Reveal younger, smoother skin with this exfoliating and pore minimizing collection of vitamin and antioxidant rich skin care. Skin is plumped and smoothed with a fruit cocktail of blueberries, raspberries and blackberries. Just in time to help relieve summer skin stresses, for tightening and rejuvenating large pores, and detoxifying the skin.
